

EMB Web Sites

All the web sites in this list were tested and operational in July 2006. While it is as comprehensive as possible, it is not guaranteed to contain all EMB web sites which were functional at that date.

For governmental EMBs under the Governmental or Mixed Model of electoral management, the list shows the page of the web site of the relevant ministry which gives the most clear link to electoral matters.

The list does not include web sites from other public or private bodies which contain material about electoral administration.
