# Acknowledgements

We are very grateful to our member state, Belgium, for providing the funding that made the ambitious project of which this report is a key outcome possible. Not for the first time, International IDEA owes an immense debt of gratitude to Professor Luc Huyse, lead researcher on the project who as well as authoring key sections of the report has lent his extensive knowledge and expertise to every stage of its development.

Additional thanks are due to Klaas de Jonge for research in the demanding initial stages of the project, to Stef Vandeginste of Antwerp University for his professional advice and assistance, and to Mark Salter of International IDEA's Democracy Analysis and Assessment Unit who has managed and shepherded the project through from start to finish. Thanks are also due to Eve Johansson for her professional input in editing this publication; to Andrew Mash for proofreading the final text; and to Florencia Enghel, International IDEA's Publications Manager, for ensuring smooth production of the final report on behalf of the Communications Team.

Last but not least, we acknowledge with gratitude and appreciation the key role of the country case study authors in bringing this project to fruition.
