African Leaders Hub is a Rwandan registered Civil Society Organization working to develop the future leaders of Rwanda and Africa. Africa is the youngest continent, and her young people should be prepared for their future leadership roles in their families, communities, countries, and continent. We empower youth and community members to understand and actively participate in the decision-making processes, hold human right awareness campaigns, and defend human rights. We support young people's access to quality education and access to decent employment opportunities that open doors to dignified livelihoods.

African Leaders Hub joined 120 organizations throughout the world to celebrate the Partners for Democracy Day 2024, themed: "Youth Voices: The Future of Rwanda and Africa". The event took place on the 19<sup>th</sup> of March 2024 in Kigali Rwanda where the participating youth debated on the use of their voices in preparation for their future lives. Youth hold the present and future of Rwanda and Africa and ensuring that their voices are heard is an important aspect of African Leaders Hub's work.

The participating youth made commitments to make better and informed decisions, take leadership positions in their families, classes, and other groups; and come up with personal vision statements. We believe that they will start their journey on being the future leaders of Rwanda and Africa. Thanks to the Global Democracy Coalition for allowing ALH to join hundreds of organizations in the celebration of the democracy day. African Leaders Hub looks forward to a continuous partnership with the coalition in fostering the democratic values in Rwanda and Africa and preparing the youth for future leadership positions.
