Data for SDG16: Recommendations for Data Innovation & Partnerships

Joel Martinez | Director of Engagement
July 14 2020

1. Use Partnerships to Test Methodologies & Increase Data Availability

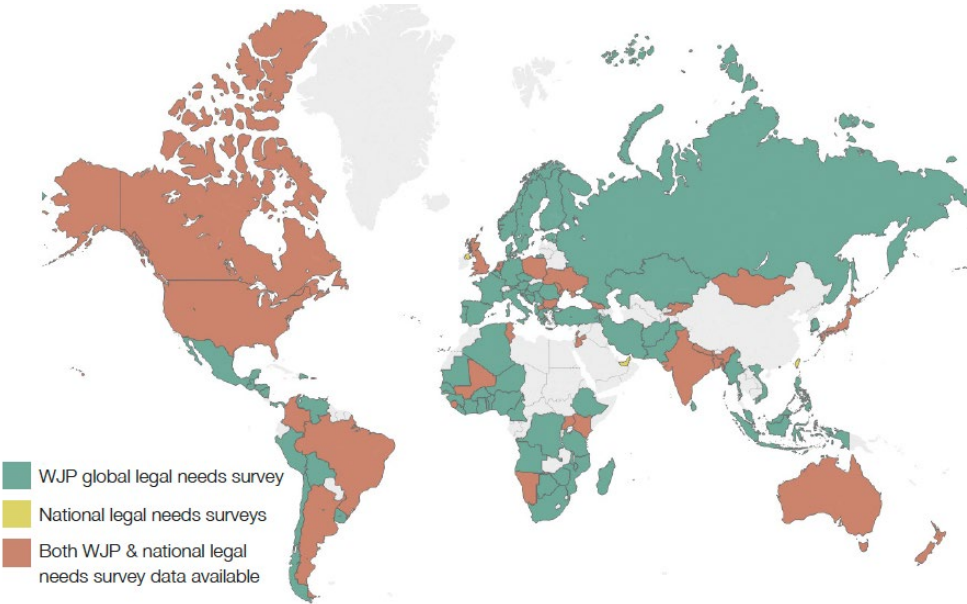

- ✦ OECD & OSJI convened NSOs, academics, and civil society to produce methodological guidance on legal needs surveys
- ✦ WJP piloted standardized methodology in 60+ countries, and collected data for 100+ in two years
- ✦ Methodological basis for 16.3.3 indicator proposal

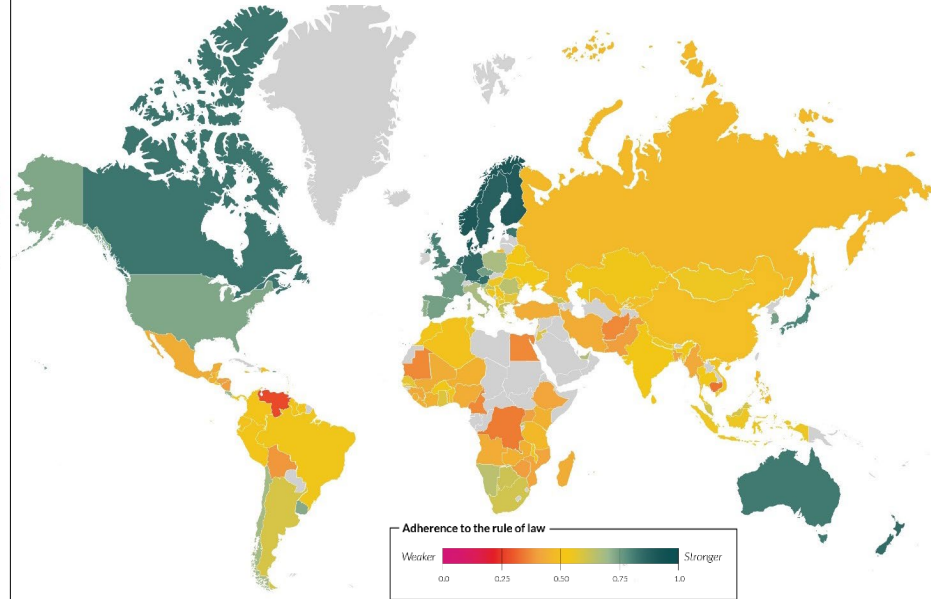

2. Use Existing Data

- ✦ Non-official data can provide proxies until official data is available
- ✦ Non-official data can measure additional dimensions of rule of law and justice, not captured in the official indicators.

Availability of Legal Needs Survey Data

Rule of Law Index Scores

3. Explore Alternative Methodologies

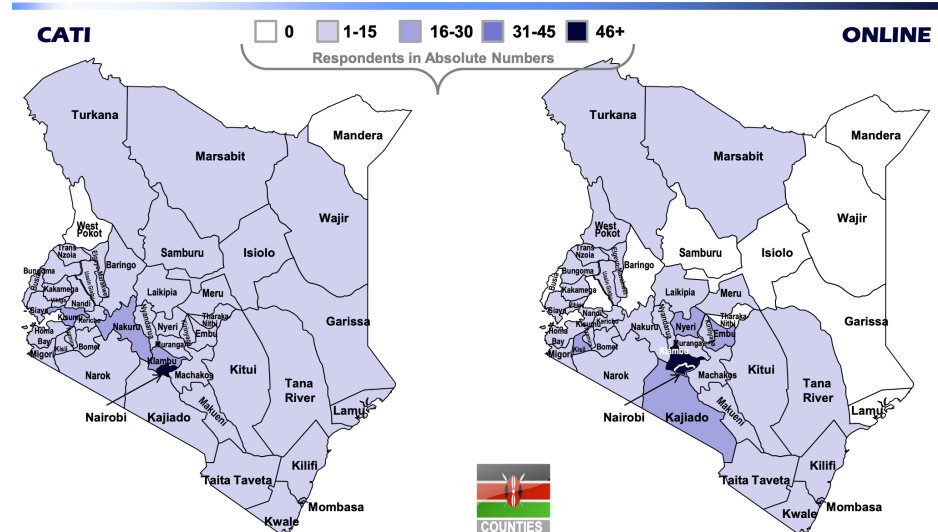

- ✦ Online surveys, Random Digit Dialing (RDD), and expert surveys are more feasible in the short- to medium term
- ✦ Work in partnership with non-official data producers to pilot alternatives

Combining RDD & Online Surveys in Kenya

Geographic Spread - Kenya

(CATI: n=504; Online: n=518)
