OECD & OSJI convened NSOs, academics, and civil society to produce methodological guidance on legal needs surveys.

WJP piloted standardized methodology in 60+ countries, and collected data for 100+ in two years.

Methodological basis for 16.3.3 indicator proposal.
2. Use Existing Data

- Non-official data can provide proxies until official data is available
- Non-official data can measure additional dimensions of rule of law and justice, not captured in the official indicators.
3. Explore Alternative Methodologies

- Online surveys, Random Digit Dialing (RDD), and expert surveys are more feasible in the short- to medium term.
- Work in partnership with non-official data producers to pilot alternatives.
