To Provide Consultancy Services for the role of Project Officer for the Project entitled “Support to the Yemeni Peace Process - Constitutional Dialogues”

The International Institute for Democracy and Electoral Assistance (International IDEA) is an intergovernmental organization that supports sustainable democracy worldwide. International IDEA’s mission is to support sustainable democratic change by providing comparative knowledge, and assisting in democratic reform, and influencing policies and politics.

International IDEA develops, shares and enables the use of comparative knowledge in its key areas of expertise: electoral processes, constitution-building, political participation and representation, democracy and development and democracy assessments.

As part of International IDEA’s Africa and West Asia Region, the Tunis sub-regional office has been implementing a project since 2016 to provide support to Yemen’s peace negotiations. From 2016 to October 2018, the project mainly consisted of dialogue sessions and expert meetings, and focused on Yemen’s constitutional future.

The project is scheduled to commence a new phase of activities in November 2018, which will last until December 2019. During this new phase, the following activities will be organised:

(i) Dialogue sessions on Yemen’s constitutional future, including a focus on the long term constitutional and federal arrangements as well as the short term institutional and power sharing arrangements that will be in force in the immediate post-conflict period.

(ii) Working sessions with Yemen’s main political forces that will seek to deepen mid-level political party members’ understanding of the range of options on key constitutional and legal issues, and each option’s likely advantages and disadvantages. These working sessions will enable the negotiating parties to engage with the inevitable constitutional and legal complexities that will arise when the broader political arrangements are agreed.

(iii) International IDEA will organize highly specialized sessions for Yemen’s leading legal experts, in particular with a view to developing their understanding of how the text of a federal constitution should work, etc. The outputs will include: (a) the formation of a group of skilled drafters who can serve as a resource for all future negotiations; and (b) a series of briefing papers on all the drafting issues that will have to be considered, and that will be made available to all interested parties.
